

Phone Station Plus

Speakerphone Station For Smartphones

Enjoy crystal-clear conference calls with your smartphone.

Turn your iPhone or other Bluetooth smartphone into a high-quality speakerphone system with Phone Station Plus.

With a large tactile number pad, volume control and high-quality speaker built in, Phone Station Plus transforms your phone into a conference call system, perfect for use at your home or office. Phone Station Plus also features EQ controls for fine-tuning your sound to achieve ultimate clarity on every call.

Phone Station Plus is also ready for all of your favorite music. Designed for more than just conversations, Phone Station Plus is also a music playback system for your desktop. Once you connect your phone to Phone Station Plus, you can use it as a speaker to play your favorite tunes when you're not having conversations.

Make your smartphone brilliant with Phone Station Plus!
